

## CATTLEMEN BANQUET OCTOBER 21

Annual social meeting of members of the Tulare County Cattlemen's association, and their families, has been scheduled for the evening of October 21 in the Forest service building north of Morton street and east of the Santa Fe tracks, in Porterville.

Featured will be a barbecue dinner, an entertaining program and a dance. Assisting with preparations will be members of the Tulare County Cowbells, auxiliary of the Cattlemen's association, and serving will be handled by members of the Springville and Ducor 4-H clubs.

Principal speaker for the meeting has not been announced as yet by Jack Chrisman, Visalia, who is in charge of this part of the program. However, Dave Merrill, of Taft, will talk briefly on cloud seeding as a means of increasing rainfall.

Association President Freeland Farnsworth, White River, will preside at the meeting. Representatives are expected to attend from the California Cattlemen's association and from associations in other San Joaquin valley counties.

### BULLS AVERAGE \$505

An average of \$505 per head was received by F. R. and Evalyn Farnsworth, of White River, for nine head of AceHi bulls that were sold this week at the Cedarville Bull sale at Cedarville.

### CLUB CALVES

Some excellent club calves, for Future Farmers and 4-H members, will be offered at the California Shorthorn sale, slated for November 18 at the state fairgrounds in Sacramento. Full information on these calves, also on purebred Shorthorn cattle consigned to the sale, can be obtained from Ralph Jones, association secretary, in Porterville.

## SEQUOIA "ROYALTY" IN SALE

Five royally bred Holsteins have been consigned from the Sequoia Ranch herd of Mark L. and Bruce W. Borror, Springville, for the California Half-Century Classic sale in Fresno, October 14, starting at 11 A. M. on the Fresno fairgrounds.

The Sequoia ranch entries will include a prospective herd sire, Rocky Hill Mont Burke Jo Inka, a yearling with six nearest dams averaging 840 lbs, fat and testing 4%. Their classifications include three "Excellent" and three "Very Good" ratings with the average score of 90.

With him, two daughters of the "Very Good" sire Rocky Hill Mont Inka will be auctioned, one fresh or springing and one yearling heifer. Also two daughters of "Excellent" Los Robles De Kol Prince will be up, one of them a heavy springer from the "Very Good" Romeo sire, and the other a nice bred heifer from a 500 lb. 2-year-old dam.

A junior judging contest will be held earlier in the morning of the sale, and students will place 90 head from 50 of California's top herds, entered in the sale.

Also consigning to the sale from the southern Tulare county area is Arden Milk Farms, of Tipton.

### CHARTER NIGHT

Various awards will be made at a charter night meeting of the Springville 4-H club that will be held tomorrow evening (Friday), at 7 P. M. in the Springville Community hall. Entertainment, talks by club members and a pot luck supper will feature the evening.

## Five Future Farmers Win State Award

Jack Gregg, Jack Boesch, Raymond Chappel, Gene Pixley and Maynard Sommer, members of the Porterville Chapter of Future Farmers of America, were selected as State Farmers at the recent Future Farmer convention at San Luis Obispo. Only 2 per cent of the state membership may be elected to the degree, according to Ralph L. Hooper, head of the agricultural department of the Porterville Union High School.

Boesch earned his degree by carrying a supervised farming program with one registered Holstein cow, one registered bull, three grade cows and heifers and two grade Holstein calves. His labor income was \$2,235.96, and his investment is worth \$3,305. He served as president of the chapter, was a member of the judging group and president of the Chapter Dairy Club.

Chappel carried a farming program with one registered Duroc sow and two registered Duroc gilts. His labor income was \$559.46, and his net worth is \$424.00. He was one of the judging group and has exhibited at various shows. He was active in the school toy drive and the tuberculosis campaign. He was active in school dramatics.

Gregg served as vice president and president of the local chapter. (Continued on Page 2)

## OPTIMISTIC CITRUS OUTLOOK INDICATED BY F. R. WILCOX IN EXCHANGE MEETING TALK

An optimistic outlook for the citrus industry was expressed by F. R. Wilcox, assistant general manager of the California Fruit Growers Exchange when he spoke at a dinner meeting of directors of Tulare County Fruit Exchange citrus houses, and guests, at Gang Sue's Tea Garden in Porterville, Monday night.

"We need not be pessimistic about the future of the citrus industry," Mr. Wilcox said, "but we must be realistic. We must look at the facts and make proper plans for the future."

In analyzing market possibilities, Mr. Wilcox said that total national orange production this year should be about 271,000 cars compared to 250,000 cars last year; that grapefruit will probably

increase from 88,000 cars last year to 114,000 cars this year; that lemon production should be up 20 per cent to 30,000 cars, making a total of some 415,000 cars of citrus this year compared to 366,000 cars last year.

Concerning the coming Central California Navel season, Mr. Wilcox said that prospects are good—crop is estimated at 8-9,000 cars, a rather light crop; quality (Continued on Page 8)

## Citrus Meetings Set For Lindsay And Porterville

Outlook for the citrus industry is the subject of meetings arranged by the Agricultural Extension service, in the Lindsay high school cafeteria the evening of October 18, at 8 P. M. and in the Porterville high school cafeteria the evening of October 19 at 8 P. M.

J. C. Johnston, former Tulare county farm advisor and now Extension Citrus specialist, will give an illustrated talk on Florida citrus and Mr. Johnson and Farm Advisor Clem Meith will compare Florida and California citrus production as to acreage, production per acre and cultural costs.

Effects of increasing consumption of frozen orange juice concentrate on the fresh fruit market, will also be discussed in its relation to the meeting of increasing competition by Central California growers.

All orange growers are invited to attend the meetings. Also scheduled is a similar meeting the evening of October 17, 8 P. M. in the music room of the Orange Cove elementary school.

## GINS PASS 4,000-BALE MARK THIS WEEK

Southeastern Tulare county's great cash crop—cotton—began to move in volume this week, with the four southeastern Tulare county gins passing the 4,000-bale mark this week.

As of the first of the week, Tule River Coop. gin at Woodville had 2,100 bales and was operating at 230 to 250 bales daily; Coberly West at Woodville had 374 bales and was ginning from 40 to 50 bales daily; San Joaquin Cotton Oil company at Woodville had 1,231 bales, with about 95 bales with a daily run of about 85 bales.

## Dairy Of Merit Awards To Be Made Tomorrow

Dairy of Merit awards will be made tomorrow to Frank Borba, off Olive street, west of Porterville; Mitchell and Robinson, Tulare and Ben Machado of Tipton in a ceremony slated for 10 A. M. at the Borba dairy.

The Dairy of Merit awards go to dairymen who have maintained an outstanding roadside appearance of their dairies. The program is being pushed by the California Dairy Industries association on the basis that a neat, well-kept and landscaped dairy premises is indicative of good, clean milk production.

The public is invited to attend the presentation ceremony at the Borba ranch tomorrow. Don M. Kruse, farm advisor, will explain the basis for scoring in the improvement program, which has been under way for several months.

The Borba dairy is located a mile east of Cotton Center and a half mile south of West Olive street.

## Field Day For Dairymen Set October 21

Dairymen, Future Farmers and 4-H club members will be given an opportunity to test their knowledge of dairy cattle and milk at a Tulare County Dairy Field Day that will be sponsored by the Agricultural Extension service on the Tulare county fair grounds, Tulare, Saturday, October 21, beginning at 9:30 A. M.

Classes of Holstein, Jersey, Guernsey and Brown Swiss cattle, provided by prominent county breeders, will be assembled for judging, after which animals will be officially placed, and reasons given, by competent dairy cattle judges. C. L. Pellisier, farm advisor, and representatives of various breed associations, will act as official judges.

In addition, several samples of milk will be scored by dairymen and students present, under direction of Jock Polzin and Harold Bell of the California Dairy Industries association. Mr. Polzin will also lead a discussion on the causes and methods of control of "off flavors" in milk.

Assisting with program arrangements is Farm Advisor Don M. Kruse.

## PORTERVILLE ENTRIES WIN AT DELANO

### SADDLE CLUB

The Orange Belt Saddle club of Porterville took a second-place award for uniformed riding groups in Delano's Wine and Harvest last festival parade Saturday.

Owen Hoover, with his famous dancing horse, "Dianne" took first place for individual riders and the H. B. Cattle ranch took first in the class for Western riding groups.

Orange Belt Saddle club members were guests of the Delano Saddle club at a barbecue dinner following the parade.

### ROPERS

Uly Priftike and Jack Ferguson took second in team roping in the Saturday afternoon rodeo that featured the 1950 Wine and Harvest Festival in Delano.

Both Priftike and Ferguson have been sharpening their roping eyes for several months at the Porterville Roping club arena on Poplar avenue, where club members gather on Sunday afternoons to practice team and individual roping.

Time for Priftike and Ferguson at Delano was 19.2 seconds.

### CANTERBELLES

First prize and a sizeable trophy went to Porterville's Fair Canterbelles as the best precision mounted drill group in the parade that featured last Saturday's Wine and Harvest Festival program in Delano.

Riding with the girls from the Porterville area were Barbara Richardson, one of the Canterbelle directors; Toni Faure, the other director, watched the girl's newly perfected parade drill from the sidelines.

HARVEY LYNN, left, president of the California Fruit Growers Exchange, who spoke at a meeting of directors of Exchange packing houses in the Tulare County Fruit Exchange at Gang Sue's in Porterville Monday evening, and LeRoy E. Lyon, vice president of the Exchange, shown with the first shipment of frozen orange concentrate bearing the famous "Sunkist" trademark. Also speaking in Porterville Monday were F. R. Wilcox, assistant business manager of the Exchange and P. E. Simpson, general manager of the Fruit Growers' Supply company.

## COTTON GROWERS SHOULD USE CARE IN TIME, METHOD OF DEFOLIATION FOR MOST PROFITABLE RESULTS

By RALPH WORRELL  
Farm Advisor

Cotton growers who plan to defoliate their crop are urged by the University of California Agricultural Extension Service to exercise care in the time and method of application.

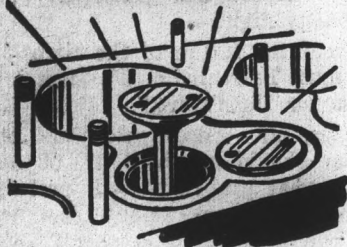

In order for the defoliants to be effective the plants should be mature and not growing vigorously, yet, at the same time, the leaves should not be in a wilted condition.

Two general types of materials are on the market for defoliating cotton. One requires dew on the plants within a day or two after the application in order to be effective. The other material is satisfactory even in the absence of dew, providing the air humidity is high. Growers should assess carefully the prevalent dew conditions before ordering their material.

Where a grower has a small cotton field surrounded by other crops, it is doubtful whether he should attempt to defoliate the cotton. There is chance of the defoliant drifting over onto the adjoining crops and causing damage there.

Don't try to remove ball-point pen ink with water; that sets it. Use a solvent, or better, send it to the cleaners.

Mounted groups: Best mounted group, posses and clubs, first, \$15; second, \$10 and third, \$5. Best silver mounted group, \$15; best western outfit, individual man, woman, boy and girl, \$7.50 each, with judging of the later

## REGINA OLIVE COMPANY TO PAY \$2,096

The state department of agriculture has announced Judge Frank Lamberson of the Superior Court of Tulare county, ordered judgment against Regina Olive Products company a processing olive concern of Terra Bella.

The Judge ordered the defendant to pay olive assessments in the amount of \$2,096.21 due the state department of agriculture for the 1948 marketing season, and to pay \$100 civil penalties, being \$50 on each of two counts in the complaint for violations of the marketing order for California canned olives and California green olives. This firm failed to file required reports for receiving processing olives, and failed to make payment of marketing order assessments thereon.

The judgement also included a permanent injunction to enjoin and restrain the defendant from further violations.

The \$2,196.21 will be deposited to the credit of the Olive Advisory board.

## "Papa Is All" Opens Winter Season On Barn Theater's New Indoor Stage

"Papa Is All" the very excellent production that had a short summer run, will open Porterville's Barn theater winter season on the new, indoor stage at the Barn, tomorrow evening. (Friday the 13th, that is.)

Eldon Hunt will be seen in his characterization of Papa; Toinette Miller, Barn "Hoss" winner, will play Mama; Michael Osker appears in the role of the son Jake; Joan Tewksbury as the daughter, Emma; Richard Deacon as a state trooper and Ann B. Davis as the gossip Mrs. Yoder.

The play deals with a Pennsylvania Dutch mother, daughter and son who rebel against a tyrannical father, who seeks to keep them away from the simple pleasures and recreations of everyday life in the name of religion.

## Speakers Heard At Quarterly Company Meeting

Speaking at a quarterly business meeting of the Finance and Thrift company, held last week in the American Legion hall, Porterville, were Gorham Miller, insurance broker, and insurance advisor for Finance and Thrift; Harry Bundy, CPA, auditor, and Ralph Yambert, owner of a Hollywood advertising agency and director of advertising and public relations for the firm.

Twenty-nine employees of Finance and Thrift were in attendance at the meeting, coming to Porterville from the various offices of the financial institution, located as far as Madera and Bakersfield.

Chester Dowell, chairman of the board, presided at the meeting. Other directors in attendance were Virgil Dowell, Visalia, attorney; William S. Allen, shoe merchant of Porterville; Max B. Jamison, attorney, Porterville; Theodore L. Cairns, rancher from Lindsay, and J. Frank Wright, lumber yard owner of Porterville.

## Blanket Awards For 4-H Girls

By BETTY WARMUTH  
Home Advisor

Girls enrolled in 4-H club clothing projects in California may apply for a special wool blanket award if they have done outstanding work with wool this year.

Twenty blankets will be given to twenty 4-H club girls in the United States. The girls who apply must be between the ages of 14 and 21, with at least three years of 4-H club work. Their records will be judged by a committee which will meet in Chicago in November.

Tulare County girls who wish to be considered as California's candidate for an award may file a standard report at the Agricultural Extension Service office, P. O. Bldg., Visalia, California.

## PARENT-TEACHERS ASSOCIATION ARE NOW SEEKING NEW MEMBERS

Annual membership drive is now being conducted by Parent-Teacher associations in the Porterville Council, with Mrs. J. Howard Williams, council president, urging both mothers and fathers who have children in school to join the organization.

Membership chairman is Mrs. George Achterberg, who states that local people should "show interest in the public schools by joining an organization that is

democratic, nationally known and universally respected.

"All parents, meaning both parents, should share in the solution of problems relating to school education."

### Allen Bayse Is State Officer

Allen Bayse, Porterville, has been elected regional vice president of the California Real Estate association, the region including the counties of Tulare, Kings, Kern, Fresno and Inyo.

At a meeting of the Orange Belt Board of Realtor this week in Porterville, reports on last week's state association meeting in Santa Cruz were given by Louise Barry, Evelyn Calkins and Sterling Ensign, representatives of the Orange Belt board at the convention.

## SPRINGVILLE NEWS

By WINNIE GAGE

The Buckhorn Ranch home of Mr. Bill Berry burned to the ground last week. The fire started in the attic and was beyond saving when the blaze was discovered. In addition to the loss of the house and tools, Mr. Berry lost a valuable pup.

Mr. and Mrs. Henry Blair of Delano visited in the Raymond Grimes home last week.

Mr. and Mrs. Paris Stillian and family of Pasadena spent Sunday with his brother, John Stillian and family.

Forty-seven members of the Second Timothy Class of the Community Methodist Church met at the Henry Ratsliff home for a Potluck dinner and business meeting.

Mr. and Mrs. Emery Wall and Mr. and Mrs. Frank Shanker of Porterville visited Mrs. George Franz and daughter Mrs. Ed Rehm and family.

Mr. and Mrs. George Haigh and Mrs. Al Haigh attended the Wine and Harvest Festival in Delano over the weekend.

Miss Ida Booth was honored guest at a prenuptial shower at the home of Mrs. Monte Gifford Friday night.

The Community Methodist Church was the setting for the marriage of Miss Ida Booth and Clifford Fittin. The matron of honor was Mrs. Doris Neal, a sister of the bride. The best man was Edward Fittin of Redwood City. Ushers were Don Fittin of San Francisco and Charles Spencer of Porterville. Miss Carolyn Johnson sang, she was accompanied by Mrs. G. Bracamonte.

A reception was held after the ceremony at the Community Hall. Mrs. Paul Schnieder was in charge of the guest book and as-

sisting in serving were Mrs. Charles Spencer and Mrs. Bob Kibler.

The couple are spending their honeymoon on the coast and will return to make their home here.

The bride is a daughter of Mr. and Mrs. George Booth. She attended the Compton schools, and the Compton Junior College.

Mr. Fittin graduated from the Lindsay High School and attended college in San Dimas.

## 4-H Foods Leader Training Meetings

By BETTY WARMUTH  
Home Advisor

The first two meetings of a series of four regional foods leader training meetings were held in Dinuba and Visalia, October 5 and 6. A total of 14 foods leaders were present at these two meetings, representing nine 4-H clubs in Tulare County: Dinuba, Kings River, Oroquieta, Oakdale, Stone Corral, Taurusa, Three Rivers, Willow and Ivanhoe.

This is the first year California has had a state-wide cooking project. Food Preservation, a seasonal project, has been offered in past years. A three year project will be available to both boys and girls in 4-H club work. The "Breakfast unit" is available this year to be followed by a luncheon

and dinner unit next year.

Goals and requirements of the new foods project were reviewed and a demonstration lesson on milk beverages was given by the 4-H Home Advisor. Leaders enjoyed a morning "brunch" of hot chocolate and orange egg-nog following the food demonstration.

Two more regional foods leader training meetings are scheduled as follows: Tulare, Wednesday, October 11, at the Methodist Church, 1:00 to 4:00 P.M.; Porterville, Monday, October 16, at the Methodist Church, 1:00 to 4:00 P.M.

## Pet And Hobby Hints

### FROM WITT'S

An outdoor dog should have a kennel that is dry, warm, and weather-proof. It should be large enough for the dog to turn around comfortably, but not too large for the heat of his body to warm. It should be insulated, raised from the ground, and have a hinged side and roof for easy cleaning and airing. Put the door in the south side, off-center so that the dog will be protected from wind and weather.

Dog chains should have at least two swivels and a shock absorbing spring. Collars or harness should fit properly. You can make the harness for your small pets. Working with leather is fun and a craft now available to all.

Only a few years ago, leather craft was a closely guarded secret. The work of the Mexican artists and the old western masters has been studied and tools, materials, and instruction are open to everyone. Few crafts are more satisfactory. Making Christmas presents of leather goods is a pleasure and insures that your gift will be enjoyed. Wallets, purses, belts, aren't difficult.

Witt's Pet and Hobby Shop on So. Main Street can supply you with all your craft needs and give you instruction. Witt's caters to all pets from goldfish to great danes. If you have a pet problem, ask the Witts; there is no charge for advice.

# SHOPPING AROUND

## Handicapped Children

At last, something is being done for handicapped children. The school systems, The Crippled Children's Society, and other groups whose names I don't know, service clubs, and women's clubs such as the A.A.U.W. are joining with county, state, and federal agencies to help the kids. For years the Shriners have maintained their hospitals.

Now, the children have a chance to attend school and be helped by specially trained teachers and physical therapists. Just lately we have begun to understand about spastic conditions and other strange problems. It's amazing that more of us aren't farther from normal, when you stop to think how complicated a contrivance we are!

I'd like to point out that many of us aren't perfectly put together, or have had injuries at birth or otherwise been partially disabled. Often, in the past, this wasn't understood and people with only slight handicaps were thought dumb, crazy, lazy or mean. The victims didn't know . . . they'd never experienced normal life and believed what society thought.

I'm handicapped, myself, so I feel free to talk. There are many things that I'm unable to do because my hands shake and my arm and hand muscles seem to be poorly coordinated. It used to cause me terrible mental agony . . . embarrassment beyond description. Now that I've learned about such things, I'm no longer embarrassed . . . that in itself has eased me so that the condition is much improved.

I'm writing this to urge that all parents who suspect that a child may just be even slightly imperfectly coordinated do something to help the poor kid! It's nothing to be ashamed of! But you can live out your lives in shame if you fail to help the child! Beating him to death would be no more unkind.

In Porterville, as in most all of our towns, there are classes

## Fall Flower Show

The annual Fall Flower Show sponsored by the Past Presidents of the Porterville Women's Club, will come off this week end. All entries are to be registered at the east door of the club house between 8 and 11 A. M. Saturday, October 14.

The show will be open to the public from 2 to 9 P. M. Saturday and from 12:30 to 9 P. M. Sunday. Prizes will be awarded at 8 P. M. on Sunday. All of the judges are from out of town; a blessing, in that they have a chance to escape.

There is a place for any and everything that you care to enter. All blooming flowers, shrubs, berry plants, bulbs, cacti, ornamental gourds, and "unusual or novel entries" as well as table decorations, shadow boxes, miniatures, "arrangements", arts, crafts and children's work are welcome along with a special class for the largest collection of mixed flowers from one garden.

Always be sure that all remnants of old wax are cleaned off linoleums, rubber tile, and asphalt tile before you put more on.

and clinics for these youngsters. Consult the school system, perhaps your child can get enough help in his regular classes . . . if he needs more help, it'll be provided.

For the benefit of those of you who are perfectly hitched up . . . let me tell you what it's like to have your wires crossed. Try to wiggle your ears; if you know how, try to flick a fly off the skin of your back by making only the skin at that exact spot move . . . as a horse does! That is the effort it takes to sign my name about half of the time! And my case is too slight to worry about, now that I'm adult!

The special health committee of the A.A.U.W. and the Emblem Club have helped finance the carrying on of this work in Porterville, as have other organizations. If your child is pre-school age, consult Mrs. Frank Hallford, she can give you the information you'll need.

## GOSSIP

By BETTY SCOTT

"Have you heard, another dress shop is coming to town?" That's the gossip up and down the lane in Porterville this week. Everyone "knows" it's to be a "chain outfit"; that it's to move in next door to Singer.

Nobody knows more than that. "They say" that our old chums, Cauldwell Banking, have charge of the works and that we can find out more when the contracts have been let for the remodeling. Then you button-hole the general contractor and it's your play from there.

## BOOK SHELF

Every home should have a selection of magazines . . . other than comic books, that is! You'd be surprised at some homes . . . including your own, if you'll take a good look!

A newsmagazine, a digest type, a professional or trade publication for Pappy (so he can work harder) are the bare necessities. Poor old Maw should have a home and garden magazine (so she can work harder too) and the kids should have a good magazine (so they can procrastinate about chores).

There are several hundred, maybe thousands, other kinds that are purely for fun and I think every home should consider "for fun" one of the most important of its purposes.

Participation as citizens in government and politics to build a strong country and a peaceful world.

## Not Lazy, Just Indolent!

This poem is a quotation from Houseman, sent to me by a pair of readers who say it expresses their sentiments exactly. You can see that they have me pretty well sized up too! If it can be arranged, I'd like to have the poem appear on these pages every week as long as I hold out!

Yonder see the morning blinks,  
The sun is up, and so mist I  
To wash and dress and eat and

drink  
And look at things and talk and  
think  
And work, and God knows why.  
Oh, often have I washed and  
dressed  
And what's to show for all my  
pain?  
Ten thousand times I've done my  
best,  
And all's to do again!

## Shopping . . . with Betty

By Betty Scott

Are you a heliotrope? It's a cinch I'm heliotropic! Now the sun is far enuf south to come up around the other side of a mountain or building or something, so that it shines into my sleeping porch earlier and better . . . it's easier for me to stumble forth than it was! My enjoyment is marred by the thought that the dark days will soon be here . . . there I'll be tropping on my own axis and no helio! That's as sad a prospect as Christmas shopping . . . do it the easy way; have EDWARD'S PHOTOGRAPHY STUDIO make portraits for Christmas presents! Call 1385-J, millions of free parking on So. Main.

The City of Porterville has finally hit rock-bottom in the estimation of the public! Never have heard of anything quite as unpopular as the gravel job on the streets. One section of the population loves it, though . . . the bikeless kids. They gather up the rocks to throw, darn good shots, too! PROCTOR'S CLEANERS are not mad either, keeps 'em busy . . . not quite as busy as a regular dust storm, but a good imitation. Be sure your duds go to Proctors for free "Retexing".

Goofy year, apple trees setting on two crops and a third set of flowers! Azalias blooming all over again too. Much better colors in the fall blossoms. Colors that inspire you to re-do your house. Now, you know, you can get any . . . actually any . . . shade, tint, or hue you want in real paint. You do it with Boysen's "Colorizer" paint. There are 1,322 colors in it. And you can absolutely match any fabric dye.

Stop in at THE BREY-WRIGHT LUMBER CO. and see for yourself! Not only that, it costs no more and you can get the same thing again . . . really, it's cheaper, there's no waste.

Man pointed out the other night that we Republicans are either getting smarter or meaner . . . the paper said that Nixon was urging Helen G. Douglas to reveal her foreign policy! Sounds positively lured! Now the gal's in a spot; sounds bad if she does and worse if she doesn't! That's the tough part of a woman getting in politics . . . always so much revealing going on, and nothing's harder on a woman! Is your appearance too revealing? Call 107-W, for an appointment at FLORENCE PEAK'S BEAUTY SALON. Make you look good and feel good besides.

Merchants say they can take it that they spend half a day making change for the parking meters . . . and never a sale involved. Thing that burns 'em up is never a thank you! I'm working on a plan to sell change and make money, but there's probably a law involved some where and I'll end up in the jug! Change is a timely subject . . . what've you done about those slow drain pipes, those dripping faucets, those rusty pipes and that battle-scarred sink? Plumbing in the winter is insanity, get everything fixed now, call SEWELL, THE PLUMBER, 883-J, and keep in mind the freezes last winter that broke pipes.

Have you tried my wine recipes? Put wine into a pot-roast next time. The rule that's easiest to follow in using wine either to serve or cook is red with red meat, white with white meat. There doesn't have to be any mystery about it . . . use what tastes good to you and to heck with the "experts". It's a home product, lets use and enjoy it! THE ITALIAN CASH GROCERY on W. Olive has a nice selection of wines and they aren't expensive. And the best salamis, and relishes in the country come from there. Enjoy "One-Stop" shopping.

Beats me why people go elsewhere to shop! Porterville has plenty of facinating things. You can't find any fancier or better in San Francisco or L. A. The food situation is not the only example of imported things for sale here . . . you'd think the old treasure ships were sailing direct to BREY'S BOOK SHELF and tying up to the "D" St. pier! Bone China from England, Pewter Washed Copper from China, Imported Linens and Wools from Europe and Asia, and a wealth of treasure in reading . . . all at Brey's. And for real thrills at Christmas time, have Marie order your personalized cards now and get your magazine subscriptions in. The way families scramble for magazines, they must be better than gold for gifts!

From alla talk around town, a-stranger would think that somebody knew what goes on with the ball club! Also, what went on with it! A collection of all the comment would fill the library and if there has been as much under-cover rigging as advertised . . . I can't see when the plotters slept, ate, or tended their business! Now it seems, we need an economy idea . . . like the bed-divans I saw at THE PORTERVILLE FURNITURE CO. Something that looks lovely and dressy and will be serviceable besides! You'd never believe that those beautiful love seats would unfold into a bed. That's what comes of a famous manufacturer . . . Kroeler Master Craftmanship makes the difference. Shopping for a new home? Got newly-weds in your family? Mr. Lublin has the finest furniture selections in the country.

Little low on down-right dirt lately, most of the stories that come to my ear aren't gossip . . . often they're too, too true and not a bit funny, to anybody. The future looks brighter, though, I hear The Barn is casting "You Can't Take It With You". That should make as big a hit as "The Women" and cause as many wise-cracks and jibes. Fun to see how much type-casting they do! To clean things up for today, better remind you to take your washing to THE BENDIX LAUNDRY on Oak at Third. You can get it ironed after they have it spickless, they specialize in washing and ironing shirts in jig-time; and it's economy to have the rest of the stuff washed at the same time. Their soft water and dryer turn things out fluffy as down. Up!

## 20-30 Club Paints Curbs

Members of the Porterville 20-30 club are now painting street numbers on curbs in Porterville, then asking residents for a contribution as payment in order to raise funds for the 20-30 high school scholarship fund.

Members of the club are doing the actual work; all materials are being paid for by club members; all money contributed for the painting job goes into the scholarship fund, according to club officers.

### THANK YOU

## THE OLD DAYS

From miscellaneous files of pioneer Porterville newspapers, provided through the courtesy of Howard J. Frame, Porterville.

### PORTERVILLE ENTERPRISE April 28, 1899

There is no doubt but that the Minnie-Ellen mine on Deer Creek recently contracted for by Jasper McDonald of San Francisco, is a success. Mr. Edward Lynch, under whose advice Mr. McDonald interested himself in the property, is as fully confident now as when he first saw the mine.

Work has been in progress for 18 days and the shaft, which is four and one-half by five and one-half feet, was 40 feet deep. On the dump lies about 80 tons of very good-looking rock, which D. B. James, the superintendent, estimates will go \$40 to \$60 to the ton. When down 50 feet, Mr. James intends drifting, and expects to find still richer veins.

The property, which covers one square mile, is being surveyed and a townsite will shortly be staked out, when Mitchell Bros. of White River, will build and start a general store. In time, an electric pumping plant will be put in on Deer Creek and the water pumped to the mine and town, which will be lighted by electricity.

That a number of parents and friends might be accommodated, it has been thought best to hold our school closing exercises in Putnam hall, which has been placed at our disposal through the kindness of Mr. Ackerman. There will be the presentation

of diplomas to those having completed the three-year high school course. The following are now taking the final examination: Perry McDonald, Willie Traeger, Lou Schultz, Gra Beebe, Lizzie Montgomery, Conley Harper and Charles Duncan.

At a meeting of Tulare Grange No. 198, it was decided to take advantage of the appropriation of \$1,800 made by the last legislature for district fair purposes.

Kings and Tulare counties constitute the 24th agricultural district and a board of eight directors will be set up. The Enterprise highly recommends the move and requests that representatives from Porterville attend the meeting tomorrow.

Schuyler Barber returns to San Francisco today to continue his medical studies at Cooper Medical college. Mr. Barber expects to graduate next August, when he will return here and practice medicine.

About a dozen men left for J. H. William's ranch on Yokohl, Tuesday to help fence the place. There are 2,400 acres and it will take nine to 10 miles of fencing.

A mass meeting for the purpose of discussing the consolidation of irrigation ditches will take place tomorrow.

M. A. Burgess is to be congratulated on the success he met with in his first attempt to pickle ripe olives. Those who purchased some from Wilco Mentz pronounced them A-1.

Walter McCalister and N. Hall went to Lindsay to work and George Hall and Will Talbot went to Exeter for a similar purpose.

Mr. and Mrs. W. L. Worth of Plano left Monday for San Francisco.

Pat Cunningham, Pete Norton and Matt Flynn went over to Visalia, Saturday.

O. R. Porter of Visalia has relieved J. A. Tandrow as assistant agent at the railroad depot.

A. Rand, an old resident of the South Tule country, was in town from San Francisco, Wednesday.

The Porterville Lumber company has contracted with R.G. Williams to haul Coburn's cut this season.

The warm weather is here, so is the Cafe-Royal, the coolest place in town, where you can find Ernest Rotermund, the champion mixologist. The very best of liquors and cigars and the finest free lunch in Porterville.

John Bohner of San Francisco, arrived on a visit to Herman Muller and family of White River, today.

George Dillon and Lew Martin and another fellow think they have found a good mine in Grouse valley.

J. G. Limegrove, teacher of the Denison school, has closed his school with high honors. We might say the same in regard to A. E. Ainsworth, who taught the Oak Flat school.

Beacher, the well-known Kentucky Jack, will make the stand this season at Gibson's livery stable.

## Water On Road Brings Fine

Three hundred dollars, or 150 days in the county jail was imposed on Elmer Carr, Woodville ranch, when he appeared last week in the Tipton Justice court to answer charges of allowing irrigation water to flood a county road.

Mr. Carr paid \$100, the balance of the fine being suspended by Justice of the Peace, M. W. Del Re, Jr.

### TURKEYS DOWN

Contrary to a national trend, western turkey production for 1950 is down seven per cent from last year, with western states to produce 12 million turkeys this year.

## BOOKKEEPING MACHINE AT TULE RIVER GIN

A newly developed Burroughs bookkeeping machine, designed for use of cotton gins, is now in operation at the Tule River Coop. gin at Woodville. The machine does much of the work that was formerly handled by office personnel.

Only three of the new machines are in operation in California—one at Buttonwillow, the other at Wasco.

### BACK FROM TRIP

Jerry Guinn Jackson, Cotton Center, returned Sunday evening from a week's trip by air to visit in St. Joseph, Missouri.

## FINS UR EATHERS

### By Phil The Forester

Last Monday we made a 75 mile survey tour of the Friant-Kern Canal to ascertain at first hand the loss of fish life from Lake Millerton. The subject has been brought to our attention by hundreds of people from the time the canal started to carry water from the big reservoir. The same applies to the Madera Canal.

We drove on the bureau of reclamation's right-of-way along the canal from Lake Millerton to the St. John's River Wasteway and estimated that several thousand black bass, bluegill and green sunfish were in the canal with probably an equal number of fish having flowed out into agricultural fields and dry stream beds.

No water from Lake Millerton is now flowing into either of the canals but the Friant-Kern at least contains a considerable amount of water in various sections having entered as seepage into valves constructed on the bottom of the canal. These valves or seepage inlets are to relieve the outside pressure on the canal when it is not carrying water from the lake.

In these stretches of water, numerous fish were noted wherever shade was available. In addition to this we presumed there must be thousands of fish that could not be observed in the syphons, of which there were about a dozen on our route of travel.

These syphons are actually water tunnels or a continuation of the canal under other streams, railroads or highways. The first one after leaving the lake is the Little Dry Creek Syphon and the largest the Kings River Syphon or to be more explicit, the Friant-Kern Canal tunnel under the Kings River.

Before the trip we all had a conference with S. S. Leonard, construction engineer for the bureau who informed us certain residents of the Lindsay-Strathmore area used the canal water for domestic purposes. Therefore, the possibilities of seining the fish out could not be considered in any part of the canal that might tend to roll any water used by these people.

We were also informed that the syphons could not be pumped out so the fish could be rescued as the sudden lowering of the water would be detrimental to the cement structure. Furthermore, we were told the syphons were extremely dangerous to be working around, likewise the canal and for that reason public fishing therein was not to be considered. We also learned that after the cross-channel was completed next year, both the Kern and Madera canals would carry water approximately eleven months each year.

Eventually, some of the Friant-Kern Canal water will empty into the Tule, Kaweah, Kings and White rivers and Deer Creek as well as the St. Johns. But little if any rescue work can be done at these points due to the riprap construction of the wasteways which would snag the fish seines.

So now we know that fish are in the Friant-Kern and Madera canals by the thousands, presumably from Lake Millerton. We also know of several ways they can not be rescued, so what? Somebody may have an answer to this problem, who knows?

So now we know that fish are in the Friant-Kern and Madera canals by the thousands, presumably from Lake Millerton. We also know of several ways they can not be rescued, so what? Somebody may have an answer to this problem, who knows?

### WRONG AGAIN

Contrary to what we reported last week, Mrs. Carroll Simmons is the newly elected secretary of the Orange Belt Saddle club. (When we boot one, we boot it clear out of the park.)

### NEW LOCATION

Haydene Benton and Jerry Quinn Jackson have moved their dance studio to 1225 West Olive in Porterville.

## Optomistic Citrus Outlook

(Continued from Page 1)  
will be exceptionally high and indications are that southern California Valencias will be off the market before Central California Navels go on.

But Mr. Wilcox urged citrus people to control their shipments and put only a quality orange on the market.

"Formerly, at Thanksgiving and Christmas," he said, "the Navel orange was the only quality fruit on the market. Now the consumer has other good products—canned citrus juice, orange concentrates and other fruit juices."

Mr. Wilcox urged continued industry control of orange shipments, although stating that the prorate plan had been criticized severely during the past two

"freeze" years.

"Under normal conditions, however," Mr. Wilcox said, "Marketing agreements to divide opportunities to market gives premium returns."

Importance of selling was also stressed by Mr. Wilcox, who pointed out that selling costs such as advertising and merchandising, are all increasing. From a charge of seven cents per box, the Exchange will spend two and a half million dollars this year for advertising, the campaign starting in November and with 45 to 50 per cent of the budget allotted to the period that Tulare county Navels are on the market.

In commenting on marketing problems, Mr. Wilcox said that a consumer must pay twice as much per ounce of juice in fresh fruit as in cans, making it necessary that a quality fresh orange be well distributed throughout available markets in order to meet the competition and return a profit to the grower.

Some beneficial results come from the federal program in which the government stands a portion of the cost of citrus shipped to certain foreign countries, even though only slightly more than a million boxes will probably be marketed through this channel, Mr. Wilcox said.

Policy of the Exchange is to take advantage of all citrus outlets, according to Mr. Wilcox, who said that citrus processing facilities are being expanded to develop the frozen concentrate field. California problem in this connection is a cost of production about double that of Florida.

That part of the crop going into processed products will probably be sold for less than cost of production, Mr. Wilcox said, but pointed out that expected benefit will come through protection of quality and quantity of fresh fruit on the market, thru the diversion program.

Mr. Wilcox said there is little chance for reduced costs along the line of citrus production in view of generally rising prices. He said that all costs must be watched closely and as many savings brought about as possible, without being "penny wise and pound foolish."

Also speaking at the Monday meeting was Harvey Lynn, president of the California Fruit Growers Exchange and P. E. Simpson, general manager of the Fruit Growers Supply company. Ralph Tyrrell, Terra Bella, president of the Tulare County Fruit Exchange, presided; Stanley Trueblood, county Exchange manager, introduced guests and the speakers.

### KILL FLEAS

A 10 per cent DDT powder, dusted into a dog's coat, will keep fleas down; since cats are susceptible to DDT, use of rotenone or pyrethrum is recommended. To control fleas on these animals, the sleeping quarters should also be sprayed with a five per cent DDT solution.
